

## Request for ROHS certificates

Geert Huggers - 2019-12-10 - Request for ROHS certificates

We have a new global website and this new global website has also a way to download RoHS certificates.

For instance you need the RoHS certificate from the 9841.

First go to the website: <https://catalog.belden.com/>

Then type 9841 in one of the white search bars. The 9841 will appear.

Click on 9841 and extra information will be shown.

The screenshot shows the Belden Online Catalog website. The main content area displays the product page for '9841 - RS-485, (1 pr) 24 AWG (7x32) TC, PE/PVC, Foil+TC Braid Shld, CM, 120Ω'. The product description includes: 'One 24 AWG pair stranded (7x32) tinned copper conductors, polyethylene insulation, twisted pairs, overall Beldfoil® (100% coverage) + tinned copper braid shield (90% coverage), 24 AWG stranded tinned copper drain wire, PVC jacket'. There are buttons for 'Request Quote' and 'Request Sample'. Below the product information, there are tabs for 'DETAILS' and 'DOCUMENTS', with the 'DOCUMENTS' tab highlighted by a red arrow. Under the 'DOCUMENTS' tab, there is a section for 'RoHS Documentation' with a date of '2004-01-01' and a 'Download' link. Another section for 'Capability Bulletin' is also visible with a 'Download' link. The left sidebar contains a navigation menu with categories like 'Wire & Cable', 'Electronic Wire & Cable', 'Networking & Data Cable', etc.

Then click on the text “documents” (given in blue) and extra documents will be shown.

Now you are able to download the RoHS document.
